PARDON FOR DREYFUS

French Cabinet Is Said to Have Agreed to This.

PRESSURE TOO MUCH

The Press and the People Clamor for the Freedom of the Prisoner. Officers of the Army also Ask for His Release.

Paris, Sept. 15.—The *Matin* asserts that the cabinet has agreed to pardon Dreyfus and the decree will be signed Sept. 19.

Many of the provincial papers publish articles insisting the granting of a pardon.

The *Figaro* says that many of the officers of the army are asking that Dreyfus be pardoned.

Will Be Pardoned.

New York, Sept. 15.—A dispatch to The World from Paris says that Commandant Carriere, the government commissioner in the Dreyfus courtmartial at Rennes, said in an interview: "Dreyfus is certain to be pardoned very shortly; everybody wants to get rid of the Dreyfus case—soldiers more than anybody else. In any case, Captain Dreyfus will not have to go through the second degradation; of that I am certain."

Lynching Case Reopened.

Indianapolis, Sept. 15.—The celebrated Ripley county lynching case was reopened when Mrs. Lulu C. Jenkins, now of Chicago, filed three suits in the Federal court for damages aggregating \$25,000. The lynching occurred at Versailles in 1897, when William H. Jenkins, Henry Sheutter, Clifford Gordon, Lyle Levy and Burt Andrews were taken from jail and hanged by a mob. The first suit is for \$10,000 against Henry Busching, who was sheriff at the time, charging him with negligence. The second is for \$5,000 by the state on relation of Mrs. Jenkins against the sheriff and his bondsmen. These two are in line with a recent decision of Judge Baker of the Federal court, holding the sheriff and his bondsmen liable in cases of lynching where negligence or cowardice can be shown. The third suit is for \$10,000 against 60 citizens of Ripley county, many of them prominent men, alleged to have been members of the mob.

Otis Asks for More Officers.

Washington, Sept. 15.—General Otis has cabled the war department requesting additional staff officers for service in the Philippines. He asks for one additional judge advocate general, two assistant adjutant generals, two inspector generals, eight quartermasters, nine commissaries of subsistence, and two engineer officers. The adjutant general calls upon the heads of the different bureaus to designate officers for duty, as the importance of having all officers of the staff asked for before the next active campaign begins, is recognized by the department.

Town Flooded.

Vienna, Sept. 15.—The town of Scharching, on the river Inn, in Upper Austria, is flooded. The Inn is still rising and the water has reached the upper floors of the houses and in some instances has risen as high as the roofs. Several persons have been drowned. The inhabitants of Ebensee and Steyr have deserted their dwellings. The rivers Enns and Traun are falling, but the Danube is still rising. As a result of the floods a house collapsed burying a man and a child in the ruins.

Clash Seems Unavoidable.

Nogales, A. T., Sept. 15.—Herron, the American who was rescued by cowboys from the Mexican officers near Naco, has arrived here. He says that 75 cowboys are camped there determined to rescue two men in the Mexican jail. Colonel Kosterlitzky with a troop of 40 men is there on guard. Herron says that a fight cannot be avoided.

Cut to Pieces in a Gin.

Longview, Sept. 15.—Willie Wells, 19 years old, while clearing out from under a gin at J. W. Killingsworth's, four miles north of this place, was caught in the saws and his right arm cut to pieces. He was severely cut in the head. He was taken out unconscious and is not expected to live.

Bill Taylor Convicted.

Coleman, Tex., Sept. 15.—The jury gave Bill Taylor eight years in the penitentiary for the Coleman Junction train robbery. His case for murder, wherein the fireman was killed, is set for Sept. 22. This is the affair for which Keaton is indicted as an accomplice.

Kicked By a Horse.

Grapevine, Tex., Sept. 15.—The little son of Dr. R. H. Blair of Dallas, who is visiting the family of W. H. Stewart of Grapevine prairie, was kicked by a horse and severely hurt. He was struck over the right eye, the skull being laid bare. He is resting well at this time.

TRUST CONFERENCE.

Civic Federation Has Its Inning up on This Great Question.

MANY SHORT TALKS.

Labor Leaders Were Conspicuous and Declared Trusts the Enemy of the People—Bryan and Cochran to Speak from Same Platform.

Chicago, Sept. 15.—Workingmen, socialists, advocates of single tax theory, and students of political economy were heard this morning at the civic federation conference on trusts and combinations held here. A majority of the speakers spoke in vigorous opposition to industrial, financial and transportation combinations. The problem in its relations to workingmen was discussed. A long list of prominent speakers was announced for the day and served to draw the largest crowd of the conference.

The events and programme for the day's session was overshadowed by the announcement that in the evening Col. Bryan of Nebraska and Bourke Cochran, at the head of the New York delegation, would speak from the same platform. The political prominence of the two orators gave rise to the general feeling that the night session would be more of political than economic interest.

The crowd which greeted Louis F. Post of New York, the advocate of single tax, was the smallest of the session so far. His address was enthusiastically cheered and applause ceased only when Thomas J. Morgan rose and spoke on "The Trust from a Socialist Point of View."

Mr. Morgan was followed by Henry White, secretary of United Garment Workers of America.

John W. Hays, secretary of Knights of Labor, spoke. He maintained that trusts are enemies to society.

The announcement that W. Bourke Cochran of New York, and W. J. Bryan of Lincoln, Neb., would discuss trusts from the same platform in the Central Music hall for a while yesterday, threatened to bring about an open rupture in the conference. Reports had their inception when it first became known that both orators would address the conference, crystallized during the day in a rumor that each would insist on the right to speak last.

Just as the Tammany orator took his seat in the New York delegation at the opening of the afternoon session, he was called out by John W. Ela of the civic federation and Dr. Albert Shaw of New York. They engaged him in earnest conversation on the "priority" issue. The powwow terminated with the adjournment of the trio to a long distance telephone station, where connection with Lincoln, Neb., was promptly secured.

Mr. Ela did the talking. He told Mr. Bryan that Mr. Cochran wanted to know his views about their joint appearance inasmuch as the committee had decided to "play" them at the same time. Mr. Ela said that it was the Tammanyites idea to speak last. Mr. Bryan said that was his sentiment and Mr. Ela was left in little doubt but that the Nebraskan's wish was dangerously near an ultimatum. Mr. Cochran said he would defer to Mr. Bryan's wishes and would be governed by the committee's decision.

The official programme as finally arranged and given out, announces that the Tammany orator will be heard before the Democratic leader from Nebraska is given the floor.

The resolutions denouncing trusts has been drafted by the antitrust delegates for presentation to the conference. The resolutions set forth the unalterable opposition to all trusts and monopolies; demand of the several states and cities that they take such action as will lead to public ownership of all public utilities; demand Federal and state governments to enact legislation for control of railways; demand congress and legislatures of states to abolish all special privileges and take action to destroy monopoly; assert no candidate for public office is entitled to the suffrages of his fellow citizens, who does earnestly declare hostility to all trade combinations; declare it is the duty of the people by an organized effort to secure the nominations by political parties of opponents of trusts and recommends that several states take immediate action to limit the purpose for which private industrial corporations may be formed and to discourage their further formation.

The resolution was signed by the following delegates, who are members of delegations from their states: Grogan of Texas, chairman; Lockwood of Pennsylvania, Smith of Texas, Purdy of New York, Johnson of Colorado, Claggett of Idaho and McComas of Maryland.

Enlistment and Imperialism.

Texas and Massachusetts lead in the matter of Philippine enlistment to date. The south generally makes a better showing than the north. At Washington there is an inclination to regard this as on evidence of changing opinion in respect to the Philippine policy.

It is nothing of the sort. It merely shows that the south is loyal and that a great many of her young men are attracted by military adventure. Perhaps the more general prosperity in the north has something to do with the small number of enlistments there.

The sentiment of the south is overwhelmingly adverse to the Philippine policy, whether it is disguised as commercial expansion or benevolent assimilation. The south clings to the doctrines of local self government and the consent of the governed as tenaciously as it clung to constitutional state sovereignty, and it will never willingly yield to the conquest of a people whose only crime is a desire to be free.—Galveston Tribune.

An exchange prints the following marriage ceremony, which was said by a Tennessee squire a short time ago: "Wilt thou take her for thy pard, for better or for worse, to have, to hold, to fondly guard till hauled off in a hearse? Wilt thou let her have her way, consult her many wishes, make the fire every day and help her wash the dishes? Wilt thou comfort and support her father and mother, Aunt Jemima and Uncle John, three sisters and a brother?" And his face grew pale and blank—it was too late to jilt. As through the floor he sank, he said, "I wilt."

A Portland man, says an exchange, observed his little daughter burying something in a hole she had made in the garden the other day and after she had completed her work and gone away he made an investigation. What he found was a piece of paper on which was written: "Dear devil, please come up right away and get my auntie."

NEW WHEAT COUNTRY.

The Trans-Siberian Railway Opens up a Rich Grain Region.

Washington, Sept. 15. — American farmers are to have competition from another quarter in the wheat market of the world. Consul Monaghan, at Chemnitz in a report to the state department, gives interesting details of the agricultural possibilities of Asiatic Russia—a vast region, which is being brought into touch with the European market by the construction of the Transsiberian railroad.

Dr. Monaghan says that this vast territory is destined to be one of the world's richest and most productive sections. It is particularly well adapted to the growing of wheat and other cereals and since the building of the Transsiberian road, wheat from this region has already found its way to the European market. At present the resources of this region are largely undeveloped and must remain so for some years, as the population is as yet very sparse, there being less than one inhabitant to each square mile. Immigration from European Russia is sitting in, however, and 400,000 persons entered the region last year. Mr. Monaghan says: "Siberia and the Amur country possess advantages very similar to those of North America, Australia and parts of Africa. The great gain to Russia at present in developing Siberia is the guaranty that her harvests will come nearer to supplying the wheat needs."

Soldiers Condemned to Death.

Manila, Sept. 11, via Hong Kong, Sept. 15.—The local papers assert that Corporal Damhoffer and Private Conine of company B, Sixth infantry, have been sentenced to death by courtmartial and that Private McBenett has been condemned to 20 years imprisonment for having criminally assaulted native women in Manila a month ago.

The papers assert also that General Otis has recommended that President McKinley approve the sentences and that he desires a public execution of the men sentenced to death as a warning against a repetition of the crime.

Combination in South Dakota.

Mitchell, Sept. 15.—The union convention, comprising Populists, Democrats and Free Silver Republicans, met here and nominated Edmund Smith, C. B. Kennedy and Judge Bennett for the supreme court. The Chicago and St. Louis platforms were reaffirmed and Bryan's nomination in 1900 advocated. The Philippine war was denounced as a repudiation of the declaration of independence and the Monroe doctrine, and an assault on liberty everywhere. The political independence of Cuba was demanded and the formation of trusts deprecated.

Assault and Robbery.

Galveston, Sept. 15.—Gus Peterson proprietor of a woodyard at the corner of Avenue A and Nineteenth street, was brutally assaulted and robbed by unknown parties. The assault was made for robbery, and \$20 was secured from beneath the pillow of the victim. Peterson was found unconscious with four ugly gashes in his head. He had been assaulted while asleep and was left for dead. His wounds, while serious, are not considered necessarily dangerous.

Santa Fe Extension.

Guthrie, O. T., Sept. 15.—Contracts for the grading of 24 miles of the Eastern Oklahoma railway, the Santa Fe extension northeast from this city, were let and the work of grading will begin at once. Officials of this road announce that trains will be running over the road from this city to Perkins by Jan. 1 and also over the other branch from Bliss to Pawnee.

Brother and Sister Murdered.

Worcester, N. Y., Sept. 15.—John McClintock and his sister, Margaret McClintock, residing near here, were burned in their house. Strong reasons exist for believing that they were first murdered. They were aged and McClintock was one of the wealthiest farmers in this section. He received \$500 Wednesday and it is believed secreted the money in the house.

Vessels of Our Navy.

Washington, Sept. 15.—The navigation bureau of the navy has issued a list of vessels of the United States navy of all kinds, making the surprising showing of 312 crafts. This includes many small vessels and crafts captured in Cuba and the Philippines, but the showing is remarkable in comparison with the naval list of two years ago.

Pugilist Exonerated of Murder.

San Francisco, Sept. 15.—Police Judge Conlan exonerated Frank McConnell, the pugilist, who some time ago killed Jim Franey in a boxing contest before the National Athletic club. Judge Conlan held the contest was under the provisions of the law. The case against the club members, seconds, etc., was also ordered dismissed.

Stage Held Up.

Napa, Cal., Sept. 15.—The Calistoga and Lakeport stage was held up Thursday by a solitary highwayman who made off with the Wells-Fargo express box. Eight passengers were made to line up and give up their money. A well known character named Joe Weir was arrested at Calistoga charged with the robbery.

Fayette Wilson Killed.

Cumby, Tex., Sept. 15.—Fayette Wilson was shot and killed near Ruff, four miles north of this place. Wess Adams has surrendered to the officers here, claiming self defense.

Death of John E. Payne.

Mr. John Payne died yesterday morning at his home on Payne Prairie, near Edge, in this county, after an illness of about three weeks from malarial fever. Mr. Payne was born and raised in that vicinity, the community taking its name from his father, now deceased, long one of the leading and most respected citizens of the county. He was a young man about 26 years of age, held in high esteem, energetic and successful. His friends numbered a wide circle in all parts of the county, and they, with relatives, have the sympathy of The Eagle.

Oil Put on the Streets.

The city hall square received another drenching this morning, but the shower was not rain.

It was oil and came from a sprinkler which has been sent from Corsicana specially for putting on the liquid. The tank which had been used here in the other tests was not satisfactory, failing to distribute the oil properly, but in this case it was put on very nicely indeed.

The first application of oil on the square tended to lay the dust so effectually that it was decided by the council to make the test complete this morning. There is a heavy traffic on the square and it is held that if the oil will subdue the dust at this point it will be certain to do so anywhere. About the only question which remains to be settled in regard to the oil is the cost, as it appears to be satisfactory in other respects. There are some slight objections to it, but these are also urged against water, so that they do not really count.

There is a great difference in the comfort attending a drive over the city now and say three weeks ago. At that time the dust was something terrible.—Waco Telephone.

NEGRO HANGED TWICE.

First Time the Noose Slipped and the Body Fell to the Ground.

Mobile, Sept. 15.—Henry Gardner, a negro boy, aged 18, was hanged in the jailyard here for carnal knowledge of a white girl under 10 years of age. The crime was committed last June. Gardner was arrested June 14, and the announcement of the crime created great excitement here. Lynching was averted only because of prompt action of the authorities. On July 14 Gardner was convicted and sentenced to be hanged on Aug. 18. Governor Johnson granted a respite because of the affidavits made by two jurors that they had been influenced. Thursday the governor announced that he would not interfere further.

The trap fell at 9:07 but the noose had not been properly fastened and the body fell heavily to the ground. Gardner was supported between two deputies and walked into jail. Ten minutes later the negro and deputies reappeared and ascended the scaffold. Gardner was suffering great pain and cried out to his mother in the crowd: "Your boy is suffering now, mammy." The trap fell the second time at 9:27 and the negro was pronounced dead in 11 minutes.

AN AWFUL DEED.

Christian Science Woman Burns to Death Herself and Her Child.

Sedalia, Mo., Sept. 15.—The parched and blackened body of Mrs. J. M. Williams, wife of a Missouri Pacific brakeman, was found in a woodshed at her home here. She had her 2-months-old baby clasped in her arms, and it, too, was burned and blistered, and it died a few hours after it was found. Every indication pointed to deliberate suicide. A coal oil lamp, with wick removed, was found in the woodshed, and a match half burned was near it. The body of Mrs. Williams was found behind a stack of dry boards in one corner of the shed, and some of these boards were burning.

Mrs. Williams dressed in her street clothes about 4 o'clock in the morning, and taking the baby on one arm and the lamp in her hand, left the house. Her 14-year-old son heard her leave, but there was no anxiety among the children until 5 o'clock when a search was instituted among the neighbors. The woman's 16-year-old daughter found the still smoking body, with the screaming baby clasped in the parched arms.

Mrs. Williams was a Christian Scientist, and while ill some weeks ago sent to St. Louis for James A. Lowwood, leader of the Christian Science cult in that city, to come and treat her. Her mind was impaired and her condition was serious, but she had partially recovered and was considered sane the day before her tragic suicide.

Tennessee Miners Riotous.

Chattanooga, Sept. 15.—The miners at the Ducktown copper mines are riotous. They have been on a strike for several weeks and have become turbulent. The sheriff and 35 deputies left Belton for the mines, which are far from the railroad.

Strike Cause Mines to Suspend.

Charleston, W. Va., Sept. 15.—Practically the entire new river mining district is now idle. At least three-fourths of the mines have suspended entirely and nearly all the rest are at work with only a small force. The prospects of an early settlement are far from bright. The miners want an advance of five cents on the ton and the operators claim they cannot grant it.

More Miners Join the Strike.

Hinton, W. Va., Sept. 15.—Eight hundred miners have joined the strike and nearly 3000 men are now out.

Serious Condition of Affairs.

Berlin, Sept. 15.—The Cologne Volks Zeitung prints a dispatch from Shang Tung, which reports a serious condition of affairs in Hinterland. The German minister at Peking has not received any telegram from there as the Chinese government intercepted them. The German mission at Shan Tung is reported to have been annihilated and railroad communication is only possible with a strong military escort.

Jeffries Hissed.

Queens town, Sept. 15.—The Dominion line steamer New England, which sailed from this port for Boston, had among her passengers James Jeffries, the champion pugilist. Jeffries was hissed in Cork because he refused to spar with a local celebrity named O'Connor, on the ground that it would be inadvisable to do so in view of the approaching fight with Sharkey.

Beef Gone Up.

New York, Sept. 15.—The price of beef has again gone up. There has been a further advance of 1 of a cent over the top notch price of 10 cents per pound. The question of taking organized action in regard to the rise in the price of meat will be acted on definitely next Tuesday night by the New York Retail Butchers' Mutual Protective association.

Verdict of Not Guilty.

Newman, Ga., Sept. 15.—The jury in the second trial of John Mullins, charged with attempting an assault upon Mrs. Estelle Cook, near Senobia, brought in a verdict of not guilty. The theory of the defense was that the negro had not been sufficiently identified.

Killed Herself and Children.

Scotia, Neb., Sept. 15.—As a result of domestic difficulties Mrs. Earne Phillips forced her two children, aged one and two years, to take carbolic acid, then swallowed a dose of the poison herself. The three were found lying upon the floor dead.

EVERY INDUCEMENT.

Aguinaldo Refused a Good Salary to Cease War in the Philippines.

New York, Sept. 15.—A special to The World from Ithaca, N. Y., says:

Your correspondent is able to say on authority that the Schurman peace commission offered every possible inducement short of absolute self government to Aguinaldo and his followers. Aguinaldo was promised, as the price for the restoration of peace in the Tagalos tribe, a bonus of more than \$3000 a year, while the Tagalos remained peaceful. He was told that he could choose men from his tribe for the minor municipal offices. The commission went so far as to promise Aguinaldo the moral support of the United States government, if such was needed, to make his leadership of the Tagalos thoroughly secure. With all these inducements, tempting as they must have been, Aguinaldo, as the recognized head of the insurgent movement, declined to yield. He insisted upon immediate self government, and as his insistence was so firm as to make an agreement impossible, the American commissioners ceased negotiations.

President Schurman was frank in telling your correspondent a day or so ago that he favored giving to the various tribes the largest possible measure of home rule at the earliest moment. He thought the several tribes could administer their local affairs, elect their municipal officers, establish courts and penal institutions, a judiciary, etc., but he did not believe it possible to allow the natives to participate in the general government. "How could they govern the island in view of the heterogeneity and multiplicity of the tribes?" he said.

MEXICAN GUARD KILLED.

He Was Shot by Officers While Trying to Escape at Naco.

Bisbee, A. T., Sept. 15.—Another chapter has been added to the cowboy-Mexican affair on the border. This episode caused the killing of a Mexican officer by guards for assisting in the liberation of Franco, the American cowboy arrested at the time of the killing of Clayton. The day after the killing of the guards by American cowboys the Mexican officer in command pressed into service all available Mexicans in Naco as guards. Among these was Jerrado Acado, born of Mexican parents, but in Tucson, A. T., thereby making him an American. He protested, but was made to do guard duty at the jail in which Franco was confined. Acado being the brother-in-law of Franco, early Thursday morning liberated the prisoner and they escaped to this place. The Mexican officer who was on guard with Acado was asleep when the escape was made, and was shot to death by the Mexican guards, as he tried to escape while being taken to court for trial on a charge of negligence.

Ramsey has been released by the authorities. Telephone messages from Naco say that things look serious there and troop F, Ninth cavalry, colored, arrived there and is patrolling the line on this side, while the Mexicans guard the other.

Will Command in Person.

New York, Sept. 15.—A dispatch from Caracas says that President Andrade has started for Valencia to personally take command of the troops in the field against the revolutionary leader, Castro. It is his intention to summarily pacify the country and put down the revolution. Important developments are expected within a fortnight.

A representative of a New York syndicate succeeded in getting ahead of British capitalists and an offer of \$200,000 for the tramways in Bolivar has been accepted. The trolley system will be installed.

Bidding Up Cotton.

Bonham, Tex., Sept. 15.—Farmers are being benefited by a fight now going on here between the round and square bale gin companies. Cotton in the seed is being sold as high as \$2.50 per hundred, which is a better price than has been paid for several seasons. The crop will soon be marketed, as it is the lightest for years. In many portions of north Texas cotton will not make one-sixth of a bale to the acre, where two months past it bid fair to average a half a bale.

Surgeon General Wyman has wired the Commercial Appeal emphatically denying the expression of any such views and saying that there has been no suspicious case reported north of Jackson, Miss.

Largest Coal Mine in America.

La Salle, Ills., Sept. 15.—Work is nearly finished on the shaft of what will be the largest coal mine in America. It is being conducted by the Spring Valley Coal company, three miles west of La Salle. The shaft is twice as large as an ordinary entrance to mines and has a huge auxiliary escape shaft. A quarter of a million dollars will be expended before coal begins to come out. The vein to be tapped lies 450 feet down and is 50 inches thick. The mines in Hall township when the new one is in operation, will produce millions of tons of bituminous coal annually, making it the biggest district of its size in the world.

Saturnus' Crew Safe.

Washington, Sept. 15.—Advices received here from Manila state that the crew and passengers of the steamer Saturnus, which was captured and burned by the insurgents some weeks ago, were all safe and uninjured at Tarlac, the Filipino capital. It was expected that the crew and passengers would arrive in Manila soon, as it was said that they were free to go where they pleased unharmed. The Saturnus was fully insured against loss, including the risk of war.

Died of Her Burns.

Dallas, Sept. 15.—Last Tuesday a lamp exploded in the residence of Mrs. Mollie Russell, a widow, who lived on Gillespie avenue, and the burning oil ignited her clothing. She was frightened by the flames and fell to the floor before the flames were extinguished, and was taken to Parkland hospital for treatment. She died at that place Thursday afternoon. Mrs. Russell was 29 years old.
